

# NEVADA STATE JOURNAL.

TUESDAY, SEPTEMBER 12, 1893.

## OPPOSED TO SILVER.

There are persons in Nevada who claim to be in favor of silver remonetization who profess to believe that the only way it can be secured is through the Republican party. These people think the party organization should be maintained in this state and that a declaration to the effect that Nevada Republicans are in favor of the free and unlimited coinage of silver should be sufficient to insure the success of the party at the polls. They see no inconsistency whatever, while pretending to be friends of silver, in supporting a party of which the New York *Press*, one of its recognized organs, says:

The only hope for an honest currency is in the patriotism and intelligence of the Republican minority in the senate and house of representatives. The Republican party is emphatically the party of sound money. It fought the passage of the Bland free silver bill in the house March 24, 1892, when 130 out of 211 Democrats voted for the measure; its representatives in the senate on July 1, 1892, voted by more than two-thirds in favor of the Stewart free silver bill, which thirty out of forty Democrats supported; and sixty out of ninety-nine Republicans opposed the Stewart bill in the house when a decided majority of Democrats voted for its passage. If the currency of the nation is protected against degradation it will be because of the uncompromising resistance of Republicans.

As proof that the New York *Press* is right and speaks authoritatively for the Republicans, one has only to refer to the vote in the house of representatives last month. On the Bland amendment to the Wilson repeal bill 125 Republicans voted. Of these 123 cast their votes for free coinage and 12 went on record against it. The Democrats on that occasion also proved that a majority of them are against free coinage. The total Democratic vote cast was 215 of which 100 were for silver coinage and 115 against it.

This shows that the goldbug element prevails in both old parties and while not so pronounced in the Democratic party as it is in the Republican party it is sufficient to control it. It is therefore nonsensical to expect any legislation favorable to silver from either, and the only sensible course for those who favor free coinage to pursue is to build up the party that makes the remonetization of silver its cardinal principle.

## ENGLAND AFFECTED.

The demand for manufactured goods has fallen off more in England in the last six months than in the United States. The United States is affected by the business depression at home as it does not export manufactured goods to any great extent, while England, which exports goods to all parts of the world, is affected by the depression at home and abroad. It is stated that Manchester, which is the great chief manufacturing center of England, reports a falling off in the demand for cloth to the extent of 400,000,000 yards in the six months ended July 1st as compared with the corresponding period of 1892.

As the Sherman bullion purchasing act does affect England, which is on a gold basis, and factories are idle there as well as on this side of the Atlantic, it is but reasonable to assume that the purchase of 4,500,000 ounces of silver monthly by the United States government value is not the cause of its movement at less than 60 per cent of the great depression in the United States. The purchase of bullion here certainly could not have caused the great financial disturbance in Australia, which wrought greater ruin among banks and business men in a few weeks than has occurred in the United States in six months.

## ENLISTED FOR THE WAR.

The silver senators are determined to fight to the bitter end for the cause of free coinage. Thirty-three of them have signified their intention to speak on the repeal bill, and some of them will occupy at least two days. Senator Stewart last week devoted three days to the history of the demonetization act of 1873 and he is down for another speech before the debate closes.

The men who fought side by side to defeat the force bill, are now, with the exception of a few who deserted to the goldbug camp, arrayed in solid phalanx battling for the double standard. The force bill passed the house of representatives early in the summer and was sent to the senate. There its opponents, though outnumbered by friends of the measure, fought against its passage and by able generalship defeated it. They now purpose fighting the repeal bill on the same lines, and as there is no gag law by which debate can be shut off, the silver men, with faith in the justice of their cause, will endeavor by argument to convince the goldbugs of the error of their way if it takes until Christ-

mas.

The New York *Sun*, which claims to shine for all, and to be no respecter of persons, tells what the forefathers of New York's "400" were engaged at. It prints a package of received bills of the last century, wherein it is shown that a Stayesant sold handkerchiefs, a De Peyster jeans, a Rhinelander hats, a Brevoort pewter spoons, a Goelet knitting needles, a Lawrence stockings, a Beeman molasses and a Roosevelt lamp-black.

The *Gazette Publishing Company* had an editorial last evening in which it seems every stockholder had a hand, as nearly every line in the article contained the word "Gazette."

## CONGRESSIONAL PROCEEDINGS.

**SENATOR STEWART INQUIRATIVE—PUGH AND TELLER AGAINST REPEAL—NO QUORUM IN THE HOUSE.**

WASHINGTON, September 11.—Senator Stewart submitted a resolution for a committee of five to report whether any senator is interested as a stockholder or otherwise in any national bank.

Hill objected to it on the ground that it is a reflection on senators, and it went over till to-morrow.

The repeal bill was taken up and Pugh of Alabama spoke in opposition to it. Pugh said if the Sherman law was repealed to restore confidence among the money lenders the lion of discontent among the toiling millions will be awakened and the roar would shake the continent. It was the unalterable purpose of the opponents of repeal to stand upon convictions of public duty and fidelity to pledges to the people they represented. He honored them with his confidence on this vital subject until their physical strength was exhausted.

Teller followed Pugh, resuming his speech begun Saturday against repeal. He continued his argument to show that the panic was not due to the Sherman law. He said he had been told when he asked a certain gentleman when the panic would be over, that the banks called it on and could not call it off. The panic was worse from the time congress was called together.

IN THE HOUSE.

The house remained in session only half an hour, with less than a hundred members present. The chaplain in his prayer asked for the continued life and health of Mrs. Cleveland and child.

Murray (colored) unsuccessfully sought the immediate passage of a resolution appropriating \$200,000 for the relief of cyclone sufferers at Beaufort, S. C.

A resolution passed confiscating the public documents issued up to December 1, which members of the house voted to themselves.

## BRAZIL ALL RIGHT.

LONDON, September 11.—An official dispatch has been received at the Brazilian legation here which seems to throw some light upon the situation of affairs in that disturbed republic. The message says that Rio de Janeiro is in a state of perfect tranquility, alarming reports to the contrary notwithstanding. The official message adds that the Brazilian government is strong, has the confidence of a majority of the people, and that it is able to repress, and will repress, all revolt. Congress continues the official communication, has just declared a state of seige, but, it is added, the government prefers not to be obliged to carry out the workings of martial law.

## DISTRACTIVE FIRE AT SPOKANE.

SPOKANE, September 11.—The Spokane Exposition Building, an immense structure erected in 1890 at a cost of \$100,000, was destroyed by fire to-night. The fire started at 10:30 and in half an hour the building was razed to the ground. Tramps have for some time past been sleeping in the building, and it is supposed that they carelessly set fire to it. The building was owned by several business firms who held judgments against it. There was no insurance.

## Boss Buckley in Boston.

BOSTON, September 11.—Christopher A. Buckley, who once ruled San Francisco as "The Blind White Devil," reached here on the Cunard steamer Catalonia, coming from Liverpool. With him were Mrs. Buckley, her sister, Miss Nellie Hurley of Boston, and Christopher A. Buckley Jr. of London, three months old.

## AGAINST A REDUCTION.

OMAHA, September 11.—Unorganized employees of the Union Pacific completed their formation of a branch of the American Railway Federation, and voted to resist a reduction in wages. The situation on the Union Pacific is becoming strained.

## TELEGRAPHIC NOTES.

Prince Bismarck, who has been seriously ill for some time, is reported to be in a critical condition.

There is said to be a majority of the Ways and Means committee in favor of putting wool on the free list.

Several furnaces at Pittsburgh, Pa., which have been banked for some time, resumed operations yesterday, giving employment to 3,500 men.

The representatives of various boards of trade and chambers of commerce are to meet in Washington to-day to protest against free coinage.

Judge Ross of the Southern District of California has ordered seven more Chinese deported and issued twenty more warrants for arrest.

Harry Jones, arrested for the murder of Miss Jane Wright at Kansas City, has confessed his guilt and implicated John Clarke, who is also under arrest.

Three hundred Chinese left San Bernardino for San Francisco stating that they had been ordered to China by the Six Companies. The Six Companies say they issued no such order.

It is reported that central New Mexico has been shaken almost daily for three months with earthquakes. The people of the locality experience nervous sickness and some of them are thrown into convulsions when the shocks begin.

The Congress of Religions at Chicago yesterday was attended by representatives of all denominations. There were disciples of Jehovah, of Christ, of Mohammed, Buddha and Confucius in attendance, and all assumed an attitude of prayer as Cardinal Gibbons of the Roman Catholic church pronounced an invocation to Deity.

## WHAT ARE WE GOING TO DO?

**AN ABNORMAL CONDITION OF AFFAIRS—THE SILVER, FARMING AND TRANSPORTATION QUESTIONS.**

**ERROR JOURNAL.**—The all-absorbing topic of conversation here at the present time is, as may be supposed, the SILVER QUESTION.

A great impetus was given to discussion by the unexpectedly large majority given in favor of repeal by the lower house of congress. That body has sent silver to the rightabout in an unmistakable manner, and in view of the action of some of its honorable members the white metal, if it could, might aptly sing of them the reproving distich:

"Twas all very well to dissemble your love,  
But why did you kick me down stairs?"

The proceedings of the senate are now watched with profound interest, for the fate of silver trembles in the balance.

President Cleveland, like a huge catapult, is battering away at the props upon which is reared the fabric of our prosperity. When he has succeeded in relegating silver to a place among the base metals and establishing his pet theory of free trade, then, like the Roman emperor of old, who fiddled away as he looked on Rome burning, he may, upon whatever may be his favorite instrument, discourse sweet music, as with equal complacency he views the havoc his unwise policy has wrought upon the country. Already we experience foreshadowings of the evils of Clevelandism. Groups of unemployed throng the streets at the busiest season of the year. Our local market has almost disappeared, and the price of our products is below the cost of production. Enterprise is completely dead and the business of the country stricken with paralysis. What the case will be when the president has got his policy into full swing who will venture to foretell? If we were to believe what he says, the suspense and gloom that now brood over the land will be dispelled and the dark winter of our discontent would be changed into glorious summer. So be it; but I opine this Populist stronghold, the state of Nevada, has little chance to share in these proffered blessings, unless, upon some plumbotomist theory, that by taking away precious blood from a patient you confer great benefit upon him.

## THE MUSTANG NUISANCE.

Under these circumstances it is not pertinent for the citizens of Nevada to consider the question, What are we going to do? Other metals we have than silver, and these we will have to give greater attention to. Our sheep and cattle have been a source of considerable income, and that industry might be greatly fostered by legislation aimed at the eradication of what is termed the mustang nuisance. Hordes of worthless wild horses are feeding on our valuable ranges and threaten to displace the valuable stock which these ranges have heretofore supported.

## OUR AGRICULTURAL RESOURCES.

But above all it is to our agricultural resources we must look to fill up in some measure the vacancy created by the annihilation of our silver producing industry. This is a matter deserving our most intellectual consideration. That we have an unlimited extent of cultivable land is a fact patent to us all and that is needed to make it yield abundantly of nearly every species of crops is a generous supply of water. The important question then arises, How is an adequate supply of water to be obtained to bring a large body of this land under cultivation? If only this could be accomplished we should have reached a point when we might safely hold out inducements to emigrants to settle down amongst us and unite their efforts with ours to build up the state. A comprehensive scheme of irrigation then I conceive to be the coming question for Nevadans to take resolutely in hand, and I trust that instead of any of our citizens becoming disgruntled and leaving the state, very likely to go further and fare worse, they will abide with us and assist in the satisfactory solution of this great problem.

## DRUGSTORES.

Mrs. DR. L. M. Bates Business Test Medium and Healer. Will give treatments and sittings at 161 Sierra street daily. Sept 12w1.

Yesterday was "Silver Day" at the world's fair and large crowds were in attendance. Through a misundstanding, Doughty of Texas was the only speaker of note who addressed the audience on silver.

Colonel Hughes of the Kansas militia, who refused to obey the orders of Governor Lewelling at the time of the legislative troubles last winter, has been found guilty by a court martial and dishonorably discharged from the service.

The Palace Hotel, which is well and favorably known to every old Nevadan, is being conducted as usual by that veteran landlord Al White, who spares neither pains nor purse to provide for the convenience of guests.

Take your prescriptions to Pinniger's pharmacy, Virginia street. Pure drugs at lowest prices.

## NEW TO-DAY.

## SITUATION WANTED.

A woman wants a situation to do house work or cooking, in town or country. Apply at JOURNAL office. Sept 12w1.

SAN FRANCISCO, CAL., September 9, 1893.—The "Woolen Mills" will open October 1, 1893, and continuing from day to day as long as may be necessary, a large lot of goods comprising the entire stock. Information concerning the nature of the articles and other information may be obtained at this office or at the office of the Post Quartermaster, 100 Market street, San Francisco, Cal. J. G. CHANDLER, sept 12w3 Chief Quartermaster.

## BOARD OF EQUALIZATION.

OFFICE OF COUNTY CLERK, WASHOE COUNTY, NEVADA, Reno, September 11, 1893.—Will give the Board of County Assessors of Washoe County, Nevada, harcompted the tax list or assessment roll for A.D. 1893, and will also furnish the map book, the stereo and delivered it and the map books, and all original lists of property given to the Clerk of the Board of County Commissioners, and the Board of County Commissioners will meet on

Monday, September 18, 1893.

As a Board of Equalization, and will hear and determine all controversies relating to the assessment value of any property within said county, and will change and correct any valuation, either by adding thereto or subtracting therefrom, and will fix the same in the assessment roll either above or below the true value; whether the said sum is in excess of or less than the true value of the property, in case where the person complaining of the assessment has refused to give the assessment list under oath as required by law, in which case judgment will be made by the Board of Equalization in the assessment made by the assessor.

The Board of Equalization will be kept open for public inspection at the County Clerk's office until after the adjournment of the Board of Equalization.

The Board of Equalization will continue in session from time to time until the business of equalization is disposed of; but said Board will not sit after

Monday, September 18, 1893.

First Monday in October, 1893.

Except that the Board of Equalization will meet to equalize the assessment roll and hear complaints in excepted cases mentioned in the revenue law, pages 47 and 52, Statutes of Nevada, 1892.

O. EVANS, Clerk of Board of County Commissioners, September 11, 1893.

## KNOWLEDGE

Brings comfort and improvement and tends to personal enjoyment when rightly used. The many, who live better than others and enjoy life more, with less expenditure, by more promptly adapting the world's best products to the needs of physical being, will attest the value to health of the pure liquid laxative principles embraced in the remedy, Syrup of Figs.

Its excellence is due to its presenting in the form most acceptable and pleasant to the taste, the refreshing and truly beneficial properties of a perfect laxative; effectually cleansing the system

dispelling colds, headaches and fevers and permanently curing constipation.

It has given satisfaction to millions and met with the approval of the medical profession because it acts on the kidneys, Liver and Bowels without weakening them and it is perfectly free from every objectionable substance.

Syrup of Figs is for sale by all druggists in 50c and \$1 bottles, but it is manufactured by the California Fig Syrup Co. only, whose name is printed on every package, also the name, Syrup of Figs, and being well informed, you will not accept any substitute if offered.

## Postoffice Hours:

From 8:30 A.M. to 6 P.M., Sundays from 9 to 10 A.M.

## BREVITIES.

Bar silver sold at 74½ cents an ounce in New York yesterday.

A woman wants a situation. See Advertisement.

O. Lonkey and Wm. Cobb were down from Verdi yesterday.

The county commissioners will meet on the 18th, inst. as a board of equalization.

Furs and overcoats have not been at all uncomfortable in these parts for several days.

Mr. and Mrs. Gott Haist and their niece, Miss Anna Locklin, of Virginia city, have gone to Chicago.

The closing of all the Jewish business houses yesterday gave the town a rather gloomy appearance.

Arthur McEwen refers to ex-Senator Ingalls as "an animated dictionary in a state of delirium tremens."

Hon. C. C. Mack of Virginia city has gone east to attend the sovereign grand lodge of I. O. O. F., which meets at Milwaukee.

John Devoe of Citrus, Esmeralda county, who is now the owner of the O'Connor ranch on Truckee meadows, was in town yesterday.

Miss Florence Abel of Paradise has returned to attend the State University. She is residing with the family of District Attorney Currier.

The Elko Independent has this: "Go without eating for just one day. Try it. See if you don't feel like an anarchist when night comes."

George Schaeffer came down from Truckee yesterday. He says it is altogether too wet and cold in the mountains for successful lumbering.

The next annual district fair, given by the Ormsby Agricultural Society, will begin in Carson on the 25th of September and conclude on the 31st.

Grass Valley, Cal., papers announce the death in that city of Dr. H. C. Sheets, a long ago resident of Reno, and at one time a partner of the late W. D. Wager.

Fresh snow fell on the mountain peaks yesterday and gave the old snow which stood the summer's heat a new coating, which it will probably retain until next summer.

View their methods how we will, there are a good many people in this community who will testify to the good works and many charitable deeds of the Salvation Army.

Mrs. W. P. McLaughlin, and her daughter Miss Annie, and her son Master William, left last night for the World's Fair. They will visit friends in the east before they return.

Another heavy rain storm visited this section yesterday afternoon and continued for several hours. When the clouds cleared away the foot hills west of town were white with snow.

The net earnings of the Southern Pacific Railroad Company, Atlantic and Pacific systems, for the first six months of 1893 show an increase of \$13,000 over the same period of 1892.

The clerk of the district court has given notice that the district court will be in session next Saturday for the purpose of calling the calendar and setting for trial all cases now at issue.

The Truckee Republican says Miss Hettenheuser had her limbs filled with bird shot one day last week inflicting serious and painful wounds. She was hunting with a companion on the shore of Independence Lake; the companion fired at a flock of birds and hit Miss Hettenheuser.

The case of the State against Simpson in which the defendant is charged with stealing two packages of bolts, valued at five dollars from the shop of A. Nadon, occupied the attention of Justice Linn and a jury of twelve men yesterday afternoon. The jury was unable to agree, standing nine for acquittal and three for conviction. The district attorney has not decided whether he will pursue the case further or not.

The Queen of Comedies, "Jane." Concerts for charitable purposes have often been heard of on board ship, but the "Jane" company has been traveling for the past week on a continuous ride from New York to San Francisco gave a performance on board the Pullman car Sterling, between Omaha and Ogden, for the benefit of a brakeman who was seriously hurt. This event will go down to posterity as the first charitable theatrical performance ever given on board of a train. The "Jane" company appears here next Saturday night at McKissick's Opera House.

## Next Week.

Let no one forget the fact that our state fair will open next Monday, and unless all signs fail the exhibits and racing will eclipse that of any previous year. The array of flyers already at the track insure success for that part of the program and if half the exhibits come forward as promised there will hardly be room in the pavilion to hold them.

## A Million Friends.

A friend in need is a friend indeed, and not less than one million people have found just such a friend in Dr. King's New Discovery for Consumption, Coughs and Colds. If you have never used this Great Cough Medicine one trial will convince you that it has wonderful curative powers in all diseases of Throat, Chests and Lungs. Each bottle is guaranteed to do all that is claimed or money will be refunded. Trial bottles free at S. J. Hodgkinson's drug store. Large bottles \$1.00 and \$1.

## Deserving Praise.

We desire to say to our citizens that for years we have been selling Dr. King's New Discovery for Consumption, Dr. King's New Life Pills, Buckle's Arnica Salve and Electric Bitters, and have never handled remedies on a scale or that have given such universal satisfaction. We do not hesitate to guarantee them every time, and we stand ready to refund the purchase price if satisfactory results do not follow their use. These remedies have won their great popularity purely on their merits, S. J. Hodgkinson, druggist.

## It Won't Do.

You may bridle the appetite but you cannot bribe the liver to do its work well. You must be honest with it, help it along a little now and then with a dose of Simmons Liver Regulator. The liver becomes sluggish sometimes and needs some stimulation to keep off those attacks of indigestion and biliousness. A good active liver promotes digestion and prevents Malaria.

## Opening of Millinery Goods.

A treat is in store for the ladies of Reno. Next Thursday, the 14th inst., Miss Gibbs will hold another of her delightful openings, displaying a complete and artistic line of millinery direct from the city.

Personal invitations will not be issued on this occasion, but the public is hereby invited to attend and inspect her elegant stock.

sep9th

## Advertised Letters.

Following is the list of letters remaining uncalled for in the Reno, Nev., postoffice September 11, 1893:

Clark, William Lee, Miss Allie  
Ellis, Wm J-2 McRath, James  
Elkins, Miss Lizzie Murphy, John  
Mumpfrey, Mrs T Meyers, Geo H  
Holton, Gideon Parish, I.N.

Johnson, Joey Walker, E  
Lapidaza, D

## State Fair Exhibits.

The people of Nevada should make the fair as much of an attraction for people of the adjoining states as our own. Every farmer, producer, manufacturer and merchant should join in and help, as it benefits themselves as well as the whole community by drawing outsiders attention to the products of Nevada.

The entry clerk will be on hand at the pavilion all this week to assign space to the exhibitors and give information. Liberal cash premiums are set apart for exhibitors. All are invited to exhibit.

## Died From Natural Causes.

The coroner had an inquest yesterday on the body of the man found dead on top of a box car Saturday night. The evidence showed that he died from hemorrhage of the lungs. The body was covered with blood when found, and gave rise to the belief that death was the result of violence. The name of the deceased was David Walls. He has two brothers living in California, who were notified of the facts. They telephoned the coroner to give the body decent burial.

## The True Laxative Principle.

Of the plants used in manufacturing the pleasant remedy, Syrup of Figs, has a permanently beneficial effect on the human system, while the cheap vegetable extracts and mineral solutions, usually sold as medicines, are permanently injurious. Being well informed, you will use the true remedy only. Manufactured by the California Fig Syrup Co.

Hood's Sarcoptic Cures

# "German Syrup"

IT IS A USELESS GIFT.  
THE VERMIFORM APPENDIX CAUSES SERIOUS TROUBLE.

Science Advances to the Rescue and Shows the Only Way to Safety—A Possibility That the Coming Man Will Be Without That Dangerous Organ.

Will the coming man have a veriform appendix? Who has not heard of that troublesome little pouch in the abdominal regions which serves no good purpose, but is responsible for thousands of deaths each year?

Emmons, Blaine, Senator Hagan and hundreds of other persons of prominence had trouble with the veriform appendix—and they died.

Now science is asking in all seriousness whether the veriform appendix shall be allowed to exist; whether it shall not be removed entirely before it has the opportunity to poison and destroy.

Professor B. G. Wilder has said flatly that children should be relieved of the veriform appendix, just as they are vaccinated. But other students in this new field are not yet ready to pronounce in favor of so radical a scheme.

Physicians have known for centuries that the veriform appendix existed, but it was not until 1888—not until five years ago—that any one of the profession had the daring to make an incision into the abdominal cavity and remove this rank offender against the laws of health.

The attack on the veriform appendix is but five years old, but it is being prosecuted with remarkable vigor in New York city, where it originated, and the reason is not far to seek. It is simply because physicians feel sure that there is evidence that appendicitis, as disease of the veriform appendix is named, causes more deaths every year than consumption, the long acknowledged chief among fatal diseases.

The appendix veriformis in normal condition is about the size of a lead pencil and about 6 inches long. It is very well shown in a specimen which was removed at a clinical lecture at the Post-Graduate Medical School on Jan. 13.

This appendix had ulcerated and increased in size somewhat, but gave a very fair idea of the part. When perfectly normal, it so compares with an ordinary lead pencil that it is most frequently described as like it. It is a pencil that writes only death warrants.

Even today very few physicians outside of New York city have any accurate knowledge of appendicitis or would undertake an operation for the removal of the appendix. So entirely is the discovery of the disease and the proper method of treating it an American development of knowledge and practice that among scientists of other countries today appendicitis is known as "the American disease."

Since the recent discoveries removals of the cause of all the trouble have been very frequent. One general practitioner has had 48 such cases within a year.

Speaking in the light of recent research, it seems safe to say that appendicitis is far more prevalent than consumption, and in just that proportion causes more deaths, the chief difference being that the cause or seat of appendicitis may be removed bodily with success in most cases, and success means restoration to perfect health.

The removal of the veriform appendix in the early stages of an attack of appendicitis now held to be one of the safest of surgical operations, while such an operation, when the case has come to its last and fatal stage, is one of the most desperate. The sad case of Senator Hagan is one in point. He had long delayed an operation, but it had been delayed until too late for an assured success.

And now, after all these facts are recited, recurs the question of whether the coming man will have a veriform appendix. It is not meant by this to inquire whether the coming man will have his appendix slain lest it slay him. A much wider question is indicated. The number of appendicitis removed in this city since the discovery that such an operation could be safely performed is very great, all things considered. One general practitioner, not a surgical specialist, told the representative of The World that he had removed 100 appendicitis in two years. Possibly 1,000 appendicitis have been removed since the first operation of this sort in 1888, and most of these in the past three years.

What follows? If such a rate is to be maintained, there will soon be a very large proportion of the people of New York city who have eliminated their veriform appendixes, and we are glad of it.

Will the children of these people be likewise possessed of veriform appendixes? Undoubtedly. But should the eliminating process be continued for a few generations, how long would it be before this useless and dangerous, degenerate and rudimentary portion of the body is permanently bred out of existence?—New York World.

A Clock That Registers the Tide.

The chamber of commerce of Rouen has erected a clock tower which gives the time on three sides and the height of the tide on the fourth, namely, that fronting the harbor. The tide indicator consists essentially of a float, which, by means of a cord and counter weight hung on a drum, actuates a series of shafts with bowl wheel gearing and moves a hand or pointer on a dial like that of a clock, marked with the necessary figures to show the level of the tide. The dials are of opal glass and are illuminated at night. The clock has an apparatus for distributing the time to other clocks in Rouen and also for unifying the time after the method adopted in Paris.

## Bald Heads!

What is the condition of yours? Is your hair dry, harsh, brittle? Does it split at the ends? Has it a lifeless appearance? Does it fall out when combed or brushed? Is it dry or in a heated condition? Does your scalp itch? If these are some of your symptoms be warned in time or you will become bald.

Skookum Root Hair Grower

Is what you need? Its production is not an accident, but the result of extensive research and knowledge of the diseases of the hair and scalp led to the discovery of how to treat them. "Skookum" contains neither mineral nor vegetable oil, but is a pure root extract. By stimulating the follicles, it stops falling hair, cures dandruff and grows hair on bald heads.

Keep the scalp clean, healthy, and free from irritating eruptions by the use of Skookum Skin Soap. It destroys parasitic insects, which feed on and destroy the hair. Price \$1.00 per bottle; 4 oz. skin soap, 50c.
